

## Kit Mobile Wall | BassTrap

Artnovion's Kit Mobile Wall | Bass Trap is dedicated to audio enthusiasts and professionals that are looking for a less invasive low-frequency treatment. Installing our tuneable membrane bass traps on these freestanding supports allows you to place them in any high-pressure area in the room, and enables them to be moved at any time and to anywhere while keeping you from having to screw or glue anything onto your room's surfaces.

This Kit ensure compatibility with Artnovion Bass Traps and any of its finishes which enables personalisation of colours and materials.

Each kit can be assembled in two height configurations, allowing you to stack either 2 or 3 Bass Traps.
